ASR Models

Open AI Whisper (large/v2-family)

- Offers Custom Fine-tuning
- Would have to build a streaming wrapper

AssemblyAI Universal 2

- Can't custom fine-tune but offers enterprise package which allows custom post-processing

ElevenLabs Scribe (ASR)

- No public ASR Documentation available
- Highly accurate and has Urdu support

Nemo/Riva

- Offers custom fine-tuning
- Production grade built for NVIDIA GPU.
- Low Latency

Uplift AI

- Only offers API - is made specifically for Urdu and other local Pakistani languages

LLM Models

Open AI 4o Models

- Offers custom fine-tuning and incredible support for [DPO](#) and [PEFT - Parameter Efficient Fine-Tuning](#)
- Very expensive - could lead to \$1000

Mistral AI

- 7B model is overall strong
- Can be trained however we like

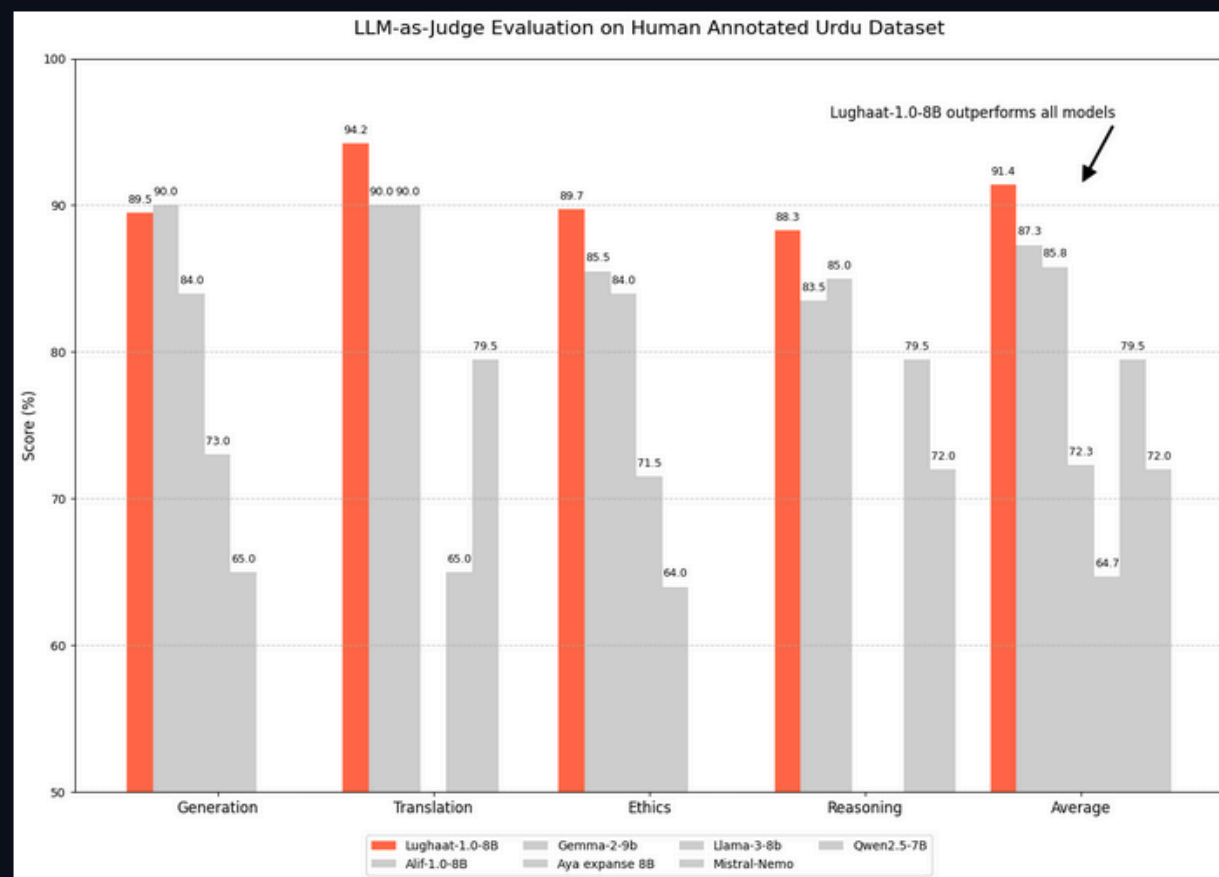

Qwen 7B-Chat

- Equal to Mistral with some changes
- Has greater multi-lingual support

Llama 3.1 8B

- Has an existing Urdu Conversational Model already build --> we might be able to fine-tune it emergency specific conversations only to save time. [Urdu Model - Lughaat from HuggingFace](#)

Lughaat-1.0-8B-Instruct Performance Evaluation

Note: This is a placeholder for the actual graph image that would be created based on the data.
